

# Making an impact with research in Zhejiang

Views from the leaders of some major research institutions in Zhejiang.

**WU ZHAOHUI**

President,  
Zhejiang University

As Asia's leading university, Zhejiang University (ZJU) has a long-standing commitment to seeking truth and pursuing innovation. We are dedicated to nurturing high-caliber innovators and future leaders for an increasingly interconnected world; encouraging interdisciplinary and creative research to address challenges faced by the world; and translating knowledge and creativity to benefit wider communities. As China endeavors to build a community with a shared future for mankind, new opportunities abound at ZJU for global outreach. With our overarching Global ZJU strategy, we are striving to make a positive difference for bettering the world.

**LI XIAOKUN**

President,  
Wenzhou Medical University

Wenzhou Medical University safeguards health for all Wenzhou people worldwide. Based in the city marked as the frontline of China's economic reform, the university is actively engaged in exploring a new model of medical education for independent medical universities, and aspires to become a leader that spearheads the development of biomedicine in China's southeastern coast areas.

**HUANG ZHENGREN**

Director,  
Ningbo Institute of Materials Technology and Engineering

Focusing on new materials, advanced manufacturing, new energy, and biomedical engineering, Ningbo Institute of Materials Technology and Engineering (CNITECH) of the Chinese Academy of Sciences is creating an exclusive platform for innovation. We put great effort into attracting talents from around the world, optimizing management systems and mechanisms, and promoting global collaboration. Our goal is to become a major technology provider which translates research into innovative products for the benefit of society.
