Above-room-temperature ferroelectricity in a single-component molecular crystal

Sachio Horiuchi, Yusuke Tokunaga, Gianluca Giovannetti, Silvia Picozzi, Hirotake Itoh, Ryo Shimano, Reiji Kumai & Yoshinori Tokura

Nature 463, 789–792 (2010)

In this Letter, the crystallographic *a* and *b* axes had been labelled incorrectly in Figs 3a, 4b and in Supplementary Fig. 1. The *a*- and *b*-axes labels need to be exchanged to correct these figures. Namely, the yellow plates of croconic acid crystal are elongated along the crystallographic *b* axis in the corrected Supplementary Fig. 1. The correct Fig. 3 depicts the surface image of crystal (010) plane. The errors do not involve the polar (crystallographic *c*) axis focused, and these corrections do not alter the essence or conclusion of the paper.
