

J. Tyler Martin, M.D.

Executive Director, Clinical Research
Novartis
Cell and Gene Therapy
1651 Page Mill Road
Palo Alto, CA 94304
United States

Roundtable

Dr. Martin received his undergraduate degree from the University of Nebraska at Kearney and went to medical school and completed a residency in Pediatrics at the University of Nebraska. He then became a Postdoctoral Fellow in Infectious Diseases and Molecular Microbiology at Washington University and St. Louis Children's Hospital. After completion of his training Dr. Martin returned to Nebraska to start a clinical infectious disease practice and a research laboratory, Episome P.C. Dr. Martin joined the biotechnology industry at Chiron, where he was involved with the development of a novel influenza vaccine. He then joined Parke-Davis, where he led the antiviral clinical research team. In 1997, Dr. Martin joined SyStemix/GTI where he leads clinical research for Novartis Cell and Gene Therapy.
