In the version of this article initially published, there was an error in column B, row 1 in Supplementary Table 1, where the unit incorrectly appeared as IC_{50} (μM) instead of IC_{50} (nM). In addition, we noticed that there was an image duplication of Extended Data Fig. 10h, where the image of SMARCA4/BRG1 IHC staining of kidney tissue from the enzalutamide group was inadvertently duplicated from the vehicle group. The conclusions of the paper remain unaffected. Supplementary Table 1 and Extended Data Fig. 10h have been updated to reflect these revisions.
