

FORTHCOMING EVENTS

Sunday, September 3—Wednesday, September 6

BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE (at Norwich)—Continuation of 123rd Annual Meeting.

Sunday, September 3

At 11 a.m.—Service in Norwich Cathedral. Preacher: The Lord Bishop of Norwich, the Right Reverend Dr. Launcelot Fleming.

Monday, September 4

At 10 a.m.—Prof. C. F. Carter: "The Economic Use of Brains" (Presidential Address, Section F).

At 10 a.m.—Dr. K. P. Oakley: "Dating Man's Emergence" (Presidential Address, Section H).

At 11.30 a.m.—Dr. Richard G. Lipsey: "Can there be a Valid Theory of Wages?—A Study of Fact and Fiction in Economics" (Lister Lecture).

At 2.30 p.m.—Dr. Judith Milledge: "Form and Colour in Nature" (Darwin Lecture).

At 8 p.m.—Dr. B. V. Bowden: "The Impact of Automation" (Evening Discourse).

Tuesday, September 5

At 8 p.m.—Mr. Kenneth Adams: "Seeing in the Round" (*Eidophor* programme).

Sunday, September 3—Thursday, September 14

ROYAL AERONAUTICAL SOCIETY; INSTITUTE OF AEROSPACE SCIENCES, United States; and the CANADIAN AERONAUTICAL INSTITUTE (at the Royal Aeronautical Society, 4 Hamilton Place, London, W.1)—Eighth Anglo-American Aeronautical Conference.

Wednesday, September 6—Saturday, September 16

INTERNATIONAL FEDERATION FOR DOCUMENTATION (in the Caxton Hall, Westminster, London, S.W.1)—27th Conference.

APPOINTMENTS VACANT

APPLICATIONS are invited for the following appointments on or before the dates mentioned:

LECTURER or ASSISTANT LECTURER IN PSYCHOLOGY at Queen's College, Dundee—Secretary of the University, University of St. Andrews, c/o Queen's College, Dundee (September 7).

RESEARCH ASSISTANT (graduate in science, preferably physics, with a knowledge of electronics) IN THE DEPARTMENT OF AGRICULTURE, for investigations into the measurement of radioactivity in livestock—The Registrar, The University, Leeds 2 (September 7).

LECTURER (with a degree or equivalent qualification, and teaching or other suitable experience) TO TEACH PHYSICS AND MATHEMATICS for Higher National Diploma Courses—The Principal, Royal Radar Establishment College of Electronics, Malvern (September 9).

ASSISTANT LECTURER IN OCCUPATIONAL PSYCHOLOGY—The Secretary, Birkbeck College (University of London), Malet Street, London, W.C.1 (September 11).

SENIOR LECTURER (graduate in bacteriology or dairying with considerable experience of agricultural and/or dairy bacteriology) IN BACTERIOLOGY—The Secretary, West of Scotland Agricultural College, 6 Blythswood Square, Glasgow, C.2 (September 11).

SCIENTIFIC OFFICERS or SENIOR SCIENTIFIC OFFICERS (with a first- or second-class honours degree, preferably in science or engineering, with a wide and intelligent interest in scientific matters and aptitude for administrative work in a scientific field) in the D.S.I.R. Headquarters, London, for scientific administrative work—Establishment Office, Department of Scientific and Industrial Research, 5-11 Regent Street, London, S.W.1, quoting HQ.4 (September 16).

TECHNICAL OFFICER (preferably with experience in a teaching laboratory) IN THE BIOCHEMISTRY DEPARTMENT, University of Melbourne, Australia, for the organization at technical level of undergraduate practical classes—The Secretary, Association of Universities of the British Commonwealth, Marlborough House, Pall Mall, London, S.W.1 (September 16).

LECTURER or ASSISTANT LECTURER IN PURE MATHEMATICS—The Secretary, The University, Exeter (September 18).

CURATOR (with a B.Sc. degree with particular training in mineralogy and palaeontology) OF FOSSILS AND MINERALS in the Natural History Museum, Adelaide, South Australia—The Agent-General for South Australia, 50 Strand, London, W.C.2 (September 22).

ECONOMISTS (2) (with a first- or second-class honours degree in economics and at least three years postgraduate experience in industry or research in industrial economics; preferably with a lively interest in technological development) in the D.S.I.R. Headquarters, Economic Section, London, to take part in planning and executing studies of the research and development needs of industries or sectors of the national economy—The Manager (PE.3324), Ministry of Labour, Professional and Executive Register, Atlantic House, Farringdon Street, London, E.C.4 (September 25).

SCIENTIFIC ASSISTANT (preferably with experience in plant nematology) to undertake the identification of helminthological collections—The Director, Commonwealth Bureau of Helminthology, The White House, 103 St. Peter's Street, St. Albans, Herts (September 30).

CHEMIST (with a degree in chemistry from an approved university, together with at least two years postgraduate experience, and a working knowledge of experimental statistics), to be responsible for a routine soil testing laboratory and to conduct research on tea soils and on

the nutrition of the tea bush—The Director, Tea Research Institute of East Africa, P.O. Box 91, Kericho, Kenya Colony (October 1).

LECTURER (preferably with special qualifications in physiology or genetics) IN BOTANY; and a RESEARCH FELLOW (with a degree, preferably some research experience, and between the ages of 23 and 35 years) IN BOTANY at the University of Tasmania, Australia

—The Secretary, Association of Universities of the British Commonwealth (Branch Office), Marlborough House, Pall Mall, London, S.W.1 (Australia and London, October 2).

LECTURERS IN THE DEPARTMENT OF MEDICAL MICROBIOLOGY, Makerere University College, East Africa—The Secretary, Inter-University Council for Higher Education Overseas, 29 Woburn Square, London, W.C.1 (October 4).

CHAIR OF CHEMICAL PATHOLOGY—The Secretary, The University, Aberdeen (October 31).

POSTDOCTORAL RESEARCH FELLOW IN THE CHEMISTRY DEPARTMENT for physico-chemical investigations of the surface chemistry of organic polymers of interest to the tyre industry—The Dean of Graduate Studies, University of Melbourne, Parkville, N.2, Victoria, Australia (November 30).

ASSISTANT BIOCHEMIST, Basic grade (preferably holding the A.R.I.C., the Grad.Mem.R.I.C., or B.Sc.(Hons.) in chemistry or biochemistry), in the Group Laboratory at Crumpsall Hospital—The Hospital Administrator, Crumpsall Hospital, Manchester 8.

ASSISTANT LECTURER, Grade B (with a good honours degree in mathematics and preferably some teaching or research experience) IN MATHEMATICS—The Clerk to the Governors, South-East Essex Technical College, Longbridge Road, Dagenham, Essex.

ASSISTANT PROFESSOR OF BIOLOGY—Head, Department of Biology, University of New Brunswick, Fredericton, N.B., Canada.

ASSISTANT PROFESSOR OF PHYSIOLOGY—The Dean of Medicine, University of Alberta, Edmonton, Alberta, Canada.

BIOCHEMIST (with a good honours degree and preferably post-graduate training or research experience, and interested in the use of advanced techniques, for example, high voltage electrophoresis, and in the invention of new techniques for the differentiation of bacteria), for duties which will include the supervision of a survey now in progress—The Secretary, National Institute for Research in Dairying, Shinfield, Reading, quoting Ref. 61/26.

BIOMETRICIAN (with a first- or upper second-class honours degree, together with an interest in biological research, and preferably experience in agricultural experimentation) IN THE DEPARTMENT OF BIOMETRICS—The Secretary, Grassland Research Institute, Hurley, Maidenhead, Berks.

D.S.I.R. RESEARCH ASSISTANT (graduate) IN ZOOLOGY, to study the responses to environmental stress of the reticulo-endothelial system of the spleen and liver in rodents, using histochemical and enzymological techniques—Dr. L. L. de Kock, Department of Zoology, The University, Aberdeen.

GEOLOGIST (under 35, with a first- or good second-class honours degree in geology, and preferably some background of economic geology and/or a knowledge of mapping, petrological interpretation and surveying with theodolite and aneroid barometers) in the British Solomon Islands, for geological field surveys, studies of mineral occurrences, and petrological or palaeontological studies—The Director of Recruitment, Department of Technical Co-operation, Carlton House Terrace, London, S.W.1, quoting C1/RC218/18/01.

GRADUATE CHEMIST IN THE SOIL SCIENCE LABORATORY, University of Oxford, to assist research into the use of new physico-chemical techniques for assessing the availability to plants of potassium in the soil—Dr. P. H. T. Beckett, Department of Agriculture, Oxford.

LABORATORY TECHNOLOGIST (A.I.M.L.T.), and considerable experience, preferably as Chief Technician) with the Government of Tanganyika—The Crown Agents, 4 Millbank, London, S.W.1, quoting Ref. M3C/53605/NF.

LECTURER or ASSISTANT LECTURER IN AGRICULTURAL ECONOMICS; and a LECTURER OR ASSISTANT LECTURER IN FARM MANAGEMENT in the Faculty of Agriculture (Imperial College of Tropical Agriculture), University College of The West Indies, Trinidad, West Indies—The Secretary, Inter-University Council for Higher Education Overseas, 29 Woburn Square, London, W.C.1.

LECTURER (with a good honours degree and capable of teaching physiology and pharmacology up to and including the external honours B.Pharm. degree of the University of London) IN PHYSIOLOGY AND PHARMACOLOGY in the Department of Biology—The Registrar, Leicester College of Technology and Commerce, Leicester.

LECTURER (under 45, with either A.M.I.E.E. or Higher National Diploma in Electrical Engineering, and at least three years teaching experience or relevant industrial experience), for an electrical technician's course at Kampala Technical Institute, Uganda—The Director of Recruitment, Department of Technical Co-operation, Carlton House Terrace, London, S.W.1, quoting BCD.114/8/032/T.

LIBRARIAN (woman zoologist, age 25-35, British nationality, with a degree in zoology or biology) in an ecological library, for duties which include subject-indexing—The Director, Bureau of Animal Population, The University, Botanic Garden, Oxford.

PHYSICIST (with a first- or second-class honours degree) IN THE MEDICAL PHYSICS UNIT, to apply physics to a wide range of medical problems, initially in the radioactive isotope field—The Secretary, S.E. Regional Hospital Board, 11 Drumshugh Gardens, Edinburgh 3.

RESEARCH ASSISTANT (honours graduate) IN PHYSICS—The Clerk to the Governors, Woolwich Polytechnic, London, S.E.18.

RESEARCH ASSISTANT (with a good degree in zoology and an interest in the physical and chemical properties of animal tissues) IN THE STUDY OF MOLECULAR STRUCTURE OF BIOLOGICAL SYSTEMS in the Department of Bimolecular Structure—The Registrar, The University, Leeds 2.

SCIENTIFIC OFFICER (with a first- or second-class honours degree in chemistry or Associate or Fellow of the Royal Institute of Chemistry, and preferably postgraduate experience in analytical work in food chemistry and insecticide analysis) in the Ministry of Commerce and Industry, Nigeria, for chemical work in connexion with the deterioration and protection of raw foodstuffs during storage in Nigeria—The Recruitment Attaché, Nigeria High Commission, 9 Northumberland Avenue, London, W.C.2, quoting Ref. E.10/2.
