

**CORRIGENDUM****Factors predicting severe childhood obesity in kindergarteners**

G Flores and H Lin

*International Journal of Obesity* (2013) **37**, 758; doi:10.1038/ijo.2013.28**Correction to:** *International Journal of Obesity* (2013) **37**, 31–39; doi:10.1038/ijo.2012.168; published online 13 November 2012

Since the publication of the above paper, the authors have noticed that in referring to the weight status for 9-month-old children, the descriptor should be the CDC standard of percentile of weight-for-height, rather than the percentile of BMI. Throughout the article,

any statement about 'crossing the 85th percentile of BMI at 9 months old' should read, 'crossing the 85th percentile of weight-for-height at 9 months old', and any statement about 'crossing the 85th percentile of BMI at an earlier age' should read, 'crossing the 85th percentile of BMI or of weight-for-height at an earlier age'.

The authors apologize for these mistakes.
