Correction to: *Molecular Psychiatry* <https://doi.org/10.1038/s41380-023-02143-7>, published online 26 July 2023

In the Discussion paragraph of the abstract, the sentence ‘Further research should clarify the causal relationship, if any, between ASD and problems of vision and if problems of vision during early life.’

should have read ‘Further research should clarify the causal relationship, if any, between ASD and problems of vision during early life.’.

The original article has been corrected.
