

Publisher Correction: Kranthi and Stone reply

K. R. Kranthi and Glenn Davis Stone 

Correction to: *Nature Plants* <https://doi.org/10.1038/s41477-020-00790-0>, published online 12 October 2020.

This Matters Arising Reply is related to two separate Matters Arising articles; however, when it was originally published it was missing the reference to the Matters Arising by I. Plewis (Modelling long-term impacts of *Bt* cotton. *Nat. Plants* <https://doi.org/10.1038/s41477-020-00789-7>; 2020), which has now been added as ref. 11, and is cited in the sentence beginning “He supports our trends showing that...”. A link to this article has now also been added at the head of the Reply. In addition, the title of this Matters Arising Reply has been changed from “Reply to: *Bt* cotton, yields and farmers’ benefits” to “Kranthi and Stone reply”. All versions of this Matters Arising article have been corrected.
