

## Thank you to all our reviewers in 2021

In 2021, 1348 reviewers wrote a peer review report for *Communications Earth & Environment*. We would like to express our thanks to all of them.

At *Communications Earth & Environment*, we received more than 700 research and review article submissions last year, an increase by 40% compared to our launch year of 2020. More than 400 of these were sent for external review. 1348 individuals agreed to support our authors and the journal by giving their time to ensure a fair and thorough peer review process.

We are very grateful for the considerable insights and input that our reviewers generously shared. To recognise our reviewers' contribution, we list them below, in alphabetical order by surname. Journal staff take full responsibility for any misspellings, omissions, or other errors.
